

Criteria For R&D Proposal Evaluation

Each Program/Project/Study will be evaluated based on the following criteria:

1. Relevance

1. Potential contributions to
 1. National/Regional Development
 2. Advancement of knowledge in its area of concern
 3. Policy and Standard formulation
2. Potential areas of application (for basic research)

2. Significance

1. Impact and benefit to society
2. Potentially/Directly provide social wealth
3. Potentially/Directly lead to technology transfer
4. Provide solution to an important fundamental problem in the area of concern (for basic research)

3. Literature Review

1. Provide a synthesis of the topic; not a mere summary or listing of published papers
2. Proper citation provided
3. Related to the hypothesis of the study

4. The Hypothesis (If applicable)

1. Based on a well-founded reviews of known results
